

Statement of the Prime Minister – Friday May 28, 2010

PM said today during his event with His Highness the Aga Khan.

Unfortunately as we saw only this morning on the shameful attack on two mosques in Pakistan the fruits of hatred are always the colour of blood. Le gouvernement du Canada condamne vivement ces meurtres brutaux. Ils nous rappellent toute l'importance du travail de l'Aga Khan et de nos propres valeurs de tolérance à l'égard des différentes croyances religieuses.

The government of Canada condemns in the strongest terms these vicious murders and sadly this reminds us why the work of the Aga Khan and our own Canadian values of toleration for people of differing religious beliefs are so important.
